## COMBINATION PUMP MODEL FSU-90

### Description

FSU-90 combination pump can be applied with gasoline, kerosene and mixed fuel. This product is a combination of a pump and an air separator. It has multiple advantages as :

- Small dimensions
- Compact structure
- Long working life
- Low noise
- High oil/air separating capability

### Technical data

<b>Installation dimensions:</b>	323mmx229mmx409mm
<b>Motor power:</b>	1.1Kw
<b>Max. rotation speed:</b>	690rpm
<b>Nominal flow rate:</b>	90L/min
<b>Dry degree of vacuum:</b>	$\geq 0.054\text{MPa}$
<b>Noise level:</b>	$\leq 73\text{dB}$
<b>Output pressure:</b>	0.18MPa-0.35MPa
