Flow Meter Model FMU-50

Description

Model FMU-50 flow meter adopts advanced technology, which is widely used on CFS diesel and gasoline dispensers. This product has multiple advantages like:

- Long operation life
- High precision
- Sturdy structure etc.

It is the best choice for diesel and gasoline dispensers.

Technical performance

Discharge rate per revolution:	0.5L
Rotary direction of shaft :	CW
Main Dimensions:	224mm x197mm
Flow range:	5L to 50LPM
Accuracy:	±0.2%(5L/min-50L/min)
Repeatability:	≤0.1%
Working life (at normal conditions)	≥ 2.000.000 Liters
